

-EXAMPLES-
**Return on Investment
(ROI)**

**DOMAIN I: Facilitating Student Learning
Indicator #1: Learning Goal**

Sub-Indicator #4

Students participate in establishing high student learning standards and are active in setting personal learning goals.

Teacher (What would you see the teacher do?)	Student (What would you see the students do)
<p>Teacher is handing out student data folders.</p> <p>Teacher points to the TEKS in the posted learning goal and references the activities for the day. Teacher makes sure the students understand the learning goal.</p> <p>Teacher gives students the writing rubric and their scores/feedback from previously scored essays, along with the previously scored essays.</p>	<p>Students are looking in their own data folders to determine areas of weakness and set their own goals for those areas.</p> <p>Students use their IGPs (journals) to write their own learning goals for the day based on the posted learning goal.</p> <p>Students use rubric to analyze their scores/feedback from previously scored essays and the previously scored essays to set their own writing goals.</p>
